About the Fund

The AQR Style Premia Trust ARSN 606 081 878 (“Fund”) aims to provide efficient, diversified exposure to four fundamental investment styles – Value, Momentum, Carry, Defensive – in a transparent and liquid vehicle with low correlation to traditional asset groups.

The Fund pursues exposures to the four styles by constructing diversified, long-short portfolios across developed and emerging market stocks/industries, equity indices, bonds, currencies and commodities.

Although specific information has been prepared from sources believed to be reliable, we offer no guarantees as to its accuracy or completeness. The information provided in this document is given in good faith and is believed to be accurate at the time of compilation. Neither AQR Capital Management, LLC nor its directors, employees or associates make any representation or warranty as to the accuracy, reliability, timeliness or completeness of the information. If you act on any information in this document, you do so wholly at your own risk. To the extent permissible by law, AQR Capital Management, LLC and its directors and employees disclaim all liability (whether arising in contract, tort, negligence or otherwise) for any error, omission, loss or damage (whether direct, indirect, consequential or otherwise).

Performance figures quoted in this document are past performance. Past performance is not a reliable indicator of future performance. Neither AQR Capital Management, LLC nor its directors, employees or associates guarantee or make any representation as to the performance of the Fund, the maintenance or repayment of capital, the price at which units may trade or any particular rate of return. Returns are calculated: to the last day of each month using NAV prices (incorporating interposed entity costs); assuming reinvestment of distributions (which may include net realized capital gains from the sale of assets of the Fund); taking into account management costs of the fund (net return). No reduction is made to the unit price (or performance) to allow for tax you may pay as an investor. Certain other fees such as Contribution fees or Withdrawal fees (if any) are not taken into account.

The information in this document, including statements concerning financial market trends, is based on current market conditions, which will fluctuate and may be superseded by subsequent market events or for other reasons. Performance of all cited indices is calculated on a total return basis with dividends reinvested. The indices do not include any expenses, fees or charges and are unmanaged and should not be considered investments.

Investments are subject to investment risk, including possible delays in repayment and loss of income and principal invested. The fund has exposure to the gains and losses of commodities, futures, options, derivatives and other financial instruments. There is a risk of substantial loss associated with trading commodities, futures, options, derivatives and other financial instruments. Before trading, investors should carefully consider their financial position and risk tolerance to determine if the proposed trading style is appropriate. Investors should realize that when trading futures, commodities, options, derivatives and other financial instruments one could lose the full amount of their investment in the Fund. All funds committed to such a trading strategy should be purely risk capital.

Diversification does not eliminate the risk of experiencing investment losses.

Risk allocation is complex and subject to change. No representation or warranty is made as to the reasonableness of the assumptions made or that all assumptions used in calculating risk allocations have been stated or fully considered.

AQR Capital Management, LLC ("AQR") is exempt from the requirement to hold an Australian Financial Services License under the Corporations Act 2001 (Cth). AQR is regulated by the Securities and Exchange Commission ("SEC") under United States of America laws, which differ from Australian laws.
